With twenty-seven carefully selected colours available, our standard colour palette serves a vast array of tastes and preferences. All our kitchen ranges can be selected in any of these exquisite hues and are also available in bespoke colours outside this palette. We take great pride in our finishing and are constantly improving our techniques to ensure we supply the highest quality kitchens possible.

Please be aware that our printed colour palette is intended as a guide only and recommend that you view a painted sample or swatch in person prior to purchasing.

ASHBURY

The Ashbury is a decidedly simple shaker-style door that will suit any kitchen space. Its beautifully painted finish allows the wood-grain to be seen and its wide range of accessory options allow you to tailor its aesthetic to your tastes. This Ashbury kitchen, finished in Porcelain, features full height, triple panel doors and profiled cornice. Broad block pilasters have been used to create a robust looking island, and tongue and groove panelling has been used in the boot room to create a very luxurious space.

ASHBURY

Painted in Edwardian White and Deep Ocean, this Ashbury kitchen uses curved doors and quarter round columns to create a softer look.

SHAKER 7058

The Shaker 7058 is a dynamic take on the shaker-style door that gives you the option between a seventy or fifty eight millimetre frame. It appears here in English Blue and Deep Ocean and uses slab drawer fronts to accentuate its contemporary look. This kitchen also uses our multi-moulding at the base of the cabinets to achieve an in-frame feel.

SHAKER 7058 – BEADED

Our Shaker 7058 door is also available with either horizontal or vertical beading. This kitchen is shown in Lead and Dust Pink and uses horizontal Wedge Beading. It also features our V-Groove style panels on the island to add an extra level of interest. The horizontal beading complements the use of multi-moulding at the base of the cabinets.

SHAKER 7058 – TRUE HANDLE-LESS

The most modern application of the shaker-style uses our painted timber U-Rail in a matching colour to the doors. Shown here in Graphite, this kitchen is decisively bold and minimalist, using a flat cornice style that complements the handle-less rail to achieve an ultra-modern look.

ARDEN

The Arden door boasts a traditional design highlighted by its exquisite ovolo moulding. In this kitchen, the incorporation of triple panel doors offers a splendid opportunity to immerse yourself in the door's ornate charm. The meticulous detailing of the Profiled Cornice complements the door perfectly, creating a truly elegant ensemble.

MARLOW

With its cock-beaded outer frame, timeless five-piece construction and beautiful painted woodgrain finish, the Marlow is the quintessential In-frame door. This range has many refined design options allowing you to achieve your perfect In-frame kitchen such as our signature Belfast sink unit doors, full height triple panel doors, shaker style end panels and freestanding leg system.

This kitchen is shown in Carbon and Porcelain.

HORIZON MATT PAINTED & PAINTED OAK

The Horizon door range stands out for its sleekness and simplicity. Available as a matt painted slab or with an oak veneer, they can be used independently of each other or as shown here in combination. The painted oak door couples beautifully with our timber U-Rail in a contrasting light oak and adds a tactile texture to the White matt painted slab doors on the sink and oven runs.

HORIZON

A contemporary flat door style shown in two contrasting finishes. The Moss green is painted on a horizontal grained timber veneer door with the White colour on the smooth painted MDF. The light oak U-Rail moulding contrasts with the painted finishes and brings out the warmth of the natural oak flooring.

HORIZON IN-FRAME

The most contemporary iteration of an in-frame door is our Horizon In-frame. With its pleasing clean lines and quirky concept, this range brings two styles of kitchen together. The standout Edwardian Blue colour partners well with this ultra-modern in-frame.

24

STAMFORD IN-FRAME

The Stamford has a beautiful raised and fielded centre panel that helps to create a classic style kitchen. Making up one of the options in our Bespoke In-frame Range, the Stamford In-frame can be specified with a plain shaker frame or a more detailed, cock-beaded frame. This kitchen is completely bespoke and shows the full extent of what can be offered in the Infinite Kitchen Collection.

STAMFORD

The Stamford is also offered as a beautiful, decorative lay-on door option. With its solid, raised and fielded centre panel and ornate accessory options, this range is for those that seek an air of luxury in their kitchen whilst not compromising on everyday practicality.

MOWBRAY

Making full use of its broad solid oak stiles, the Mowbray is unapologetically bold and robust. It is available as a painted door and in a light oak lacquered finish. This kitchen is painted in English Greyand uses our Plinth Skirting and Oversize Cornice.

MONARCH

Like the Mowbray range, the Monarch employs a broad solid oak stile to stunning effect. With an added forty-five-degree chamfer, the Monarch becomes a highly practical door that is both smart and dynamic. Shown here with our Panelled Overmantel, Tongue and Groove breakfast bar panels and oak wine bottle inserts, this kitchen accentuates the practical nature of the Monarch door.

MONARCH IN-FRAME

Another offering from our Bespoke In-frame Range, the Monarch In-frame combines the highly everyday liveable Monarch door and in-frame style. Our Bespoke In-frame range allows you to specify stile and traverse widths to your tastes

MONARCH SMOOTH

A continuation of the Monarch range, the smooth painted option contributes to a more modern looking shaker door. Its highly refined look suits a contemporary space and looks clean and pleasing to the eye.

HENLEY

The Henley is a beautifully simple take on the In-frame shaker. With a plain outer frame and plain shaker-style door, coupled with a smooth painted finish, the Henley is very much about less being more. The Henley shares the same aesthetic makeup as our Marlow In-frame, with shaker style end panels, our signature Belfast sink units, freestanding leg system and, as seen here, Shelf Support brackets.

REGENT

An elegant, plain framed in-frame that highlights the beauty of its oak construction. It is available in a painted finish and in a lacquered light oak finish. This kitchen shows of the simple design of the Regent door in Carbon and Cashmere.

EDWARDIAN REGENT

With two smart, attractive beading options, the Regent can be altered to make a door that suits your tastes and preferences. Our Craft Beading has a flowing curved profile and our Bevelled Beading has a dynamic angled profile. This kitchen shows the Edwardian Regent in light oak and Snowdrop.

EDWARDIAN MOWBRAY

Introducing another door style from our Edwardian Collection: the Mowbray Beaded door. Offering the same Craft Beaded and Bevelled Beaded options as the Regent, the Mowbray presents these styles as a delightful lay-on door choice. The Sahara colour harmonizes seamlessly with the intricate craft beading, adding a touch of elegance to any kitchen space.

TRUE OAK

The True Oak has a stepped profile centre panel that creates a sense of depth. This kitchen has been given a soft look with curved doors and features a beautiful mix of painted and light oak doors.

LAMBRIS

Another classic style, solid door that adds interest and character with its tongue and groove centre panel. For any period, character property, this door is a beautiful option, and is available painted and in a lacquered light oak

WOODSMAN

With its thick, solid oak stiles and centre panel, the Woodsman celebrates everything special about an oak door. Featuring beautiful knotty timber, our character oak finish will make any kitchen feel warm and rich in character.

ACCENT

The Accent pushes the boundaries of what can be achieved with a five-piece door: its sleek top and bottom profiles create continuous lines; aggressive chamfering and horizontal grained centre panel offer a unique style.

AIRO

This J-Profile style door is clean, minimal and practical. It can be specified in a number of different finishes including hi-gloss, matt painted and painted oak. With numerous accessories to complement this door, individual and tailored designs are easy to achieve.
